

Item A51. 28.03.2022

## **DISTRICT IDP FRAMEWORK PLAN**

V Zeeman: IDP & Communications

(Ref.: 16/7/B)

### **PURPOSE**

For Council to consider the adoption of the Section 27 District IDP Framework Plan, for the development of a 5-year Integrated Development Plan (IDP) for the Overberg District Municipality, for period 2022/23 to 2026/27.

### **BACKGROUND**

As per Section 27 of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) it is the responsibility of each district municipality to, within a prescribed period after the start of its elected term and after following a consultative process with the local municipalities within its area, adopt a framework for integrated development planning in the area as a whole.

The Framework Plan binds both the district municipality and local municipalities in the Overberg and must at least –

- a) identify the plans and planning requirements binding in terms of national and provincial legislation on the district municipality and local municipalities;
- b) identify the matters to be included in the IDP's of the district municipality and local municipalities that require alignment;
- c) specify the principles to be applied and coordinate the approach to be adopted in respect of those matters; and
- d) determine procedures –
  - (i) for consultation between the district municipality and local municipalities during the process of drafting their respective IDP's; and
  - (ii) to effect essential amendments to the framework.

### **PROGRESS**

As per Section 29(2)(b) and (3)(a) district and local municipalities must align their IDP's with the Framework adopted in terms of Section 27. The Framework is the most important directional document for aligning the IDP planning processes between district and local municipalities.

The Overberg District Section 27 Framework can best be defined as:

A coordinating effort of the Overberg District Municipality to ensure an integrated and parallel planning process at district and local level. The Section 27 Framework's main objective is furthermore to enhance and ensure alignment of planning activities amongst the various spheres of government.

It is noted that the development of the Section 27 District IDP Framework Plan (attached as **Annexure A**) was informed by consultative sessions with Overberg Local Municipalities and Department Local Government on 8 February and 18 March 2022, respectively, and developed in collaboration with District municipalities across the Western Cape.
