### **Revenue by source**

#### **Reasons for variances:**

Total revenue actual versus budgeted varies by 18.16%. The roads department typically increase spending over the 2<sup>nd</sup> quarter of the financial year. This is due to the drier season and less rain to perform maintenance and related functions.

The Provincial roads budget is implemented from the period 1 April to 31 March annually. The municipal budget is implemented from 1 July to 30 June the following year.

Revenue recognition is done when funding is received. All outstanding invoices have been paid by the department.

### **Expenditure by type**

Total expenditure variance is 13.79%.

#### **Salaries and Wages**

Employee related cost is more as it includes bonuses have been paid however the salaries and bonuses are averaged over the 12 month period on the budget.

#### **Other Material**

Roads department used materials to reseal roads that include bitumen which is a large expense that can also rise and fall as a result fluctuation in oil and fuel prices. Other material also includes roadstone that is required when taring the roads.

## **Grants and Subsidies paid**

The variance is generally due to the expenditure type that happens all at once where farmers and the public who owns property next to roads receives funding to maintain their fences.

## **Debtors**

The largest portion on the current 0-30 days consist primarily of billing for solid waste volumes being dumped and semi permanent fire charges by the local municipalities (R3.214 million) and semi-permanent billing of R1.354 million. Other related to Fire Services charged to TWK Municipality amounting to R1.574million, this will be corrected to organs of state. These invoices are payable within 30 days.

A Fire account to the amount of R1.198 million is still outstanding for a fire being billed to an entity (180 days+) and handed over to our debt collectors. The debtor appointed another attorney to deal with this matter who will engage and wishes to negotiate, since the owner does not have sufficient insurance.

The collection rate for the month at the resorts amounts to **87.03%** for semi-permanent.

Arrears longer than 120 days is handed over to the collection agencies. Some instances where arrears exists like organs of state, there is processes in dealing with the accounts between the municipality and the departments as well as interest portions, where write off requests needs to be submitted to Council for approval. Historical debt will also need to be assessed as per policy for possible debt write-off before year end.

Billing is distributed via email and normal mail, the department is also phoning the debtors, to remind them of their arrear accounts.

Interest on arrears also assist in motivating debtors to pay earlier as well as not to incur hand-over costs to collection agencies.

Renewal of contracts (leases) at the resorts are also only issued by the resort department after requests for outstanding balances are paid up, as liaised with the revenue department.
